Designed to be different

CASIO introduces monochrome CASIOTONE CT-FS1

CT-FS1BK

CT-FS1WE

FOR IMMEDIATE RELEASE

Norderstedt, October 30, 2026: With the CASIOTONE CT-FS1BK and CT-FS1WE, CASIO introduces striking models with an all-black or all-white keybed. These two design statements, with a contemporary, monochrome aesthetic, perfectly showcase the great sound quality and the portable identity of the CASIOTONE series.

The new additions to the CASIOTONE series, CT-FS1BK (all-black) and CT-FS1WE (all-white), retain the core specifications and intuitive, music-first interface of the original CT-S1, now presented in striking pure black or white. The result is a contemporary visual statement that complements CASIOTONE's great-sounding, portable identity. Additionally, a new function, *Feel Sync and its App*, invites even non-musicians to start making music.*

The CT-FS1 will be available throughout Europe from November 2026.

**The Feel Sync App will be launched in Europe on November 11, 2026, except in Serbia, Moldova, North Macedonia, Albania, Kosovo, Bosnia and Herzegovina, and Ukraine, which are scheduled for a later date.*
